

formed the Pope that he thought it better to ask the opinion and advice of another physician in view of the phases of the disease being so variable. He added that nothing grave was the matter, but that Dr. Mazzoni and he, through conscientious scruples, wished to interrogate their colleague, Dr. Rossini. The Pope, who by that time had again fallen into a state of prostration, from which he had been free for thirty-six hours, but whose intellect remained perfectly lucid, understood, but received the news with calmness and serenity, saying he would be glad to see Dr. Rossini. The latter on entering the bedroom, bowed to the Pontiff, saying he had tried to encourage the sick man. The Pope answered him, but in a weak voice.

DAY BEGAN WELL

Symptoms in the Morning Were Entirely Satisfactory.

(By Associated Press.)
ROME, July 9.—Since his illness the Pope has not begun a day as satisfied as he has today. The recovery reached such a point as to make the general public believe the Pontiff might soon be out of danger. No better synthesis of this view could be given than in the words of Dr. Rossini, who left in leaving the room about noon, that although he did not yet dare to hope, he had perhaps ceased to despair. This promising outlook, however, was followed by the startling announcement that the Pope had been attacked with diarrhea, apparently caused by the large quantity of food he had taken, and that a consulting physician had been sent for.

The patient, when he began the day, showed more his iron, mountain-like by rising and dressing almost without assistance, walking across the room to his arm-chair, and having his toilet fully performed, even to the detail of being shaved. Throughout the day the Pope showed no sign of being depressed. Indeed, he jokingly alluded to the amount of nourishment which was being imposed upon him, and said, "I ought to grow fat, as I have now." This buoyant spirit was considered to be one of the principle coefficients in the struggle with death which the venerable old man has made in the last seven days. The doctors, present since this morning for the first time Dr. Lapponi's face was tranquil and even hopeful looking, though it was said that his opinion was not the slightest diminution in the acuteness of the Pontiff's mental faculties, as shown this morning in a remarkable manner, when the Pope insisted on going over the larger questions of church policy laid before him by Cardinal Rampolla, the papal secretary of state.

At about 8 o'clock this afternoon, although no worse, the Pope was reported to be again better, and then came the news of the Pontiff's sudden relapse, and of the sending for a consulting physician.

After a long conference in the night it had been decided that a consultation should be held. Both Dr. Mazzoni and Lapponi decided that under such conditions a physician whom they would prefer was Professor Rossini, a pupil of the general clinic at Rome. Dr. Rossini arrived at the Vatican about five o'clock, when a long consultation was held.

Dr. Lapponi remained at the Vatican after the consultation of the physicians was ended, but he came for the sick chamber long enough to say a few words.

NO HOPE.
The doctor looked haggard and much depressed. The hopeful appearance, which he had shown early in the day, had entirely disappeared.

There is no hope, no hope whatever, and yet the end may not come to-night. Although the patient's condition is very grave, the disease seems to be developing through slow but certain processes.

One of the most remarkable features in the serious turn which affairs have taken is that the Pope continues dressed and partially sitting up. His mind is still perfectly clear, and apparently the only cause for alarm is that the doctors have detected a renewal of the dangerous condition.

Professor Rossini went through the most careful examination of the illustrious patient, employing again what is known as the bacilli system. The consultation lasted over an hour, and the Pope, as on the previous day, was observed on last Tuesday.

A state of great prostration has ensued, rendering more the affection of the kidneys. It is likely that an infection of salt water into the veins will be resorted to.

The diarrhoea, which appeared this afternoon and occasioned the consultation, has now ceased.

MUCH REFRESHED

Sleep During Night Refreshed Pontiff Greatly.

(By Associated Press.)
ROME, July 9.—By special favor the correspondent of the Associated Press here was allowed this morning to visit the papal apartments, where he had an interview on the situation with a personage who is better informed than any one else, but who, from motives easily understood, does not wish his name mentioned. He said:

"The first positive sign of amelioration in the Pope's condition since he was taken ill was seen this morning. The august patient rested well enough during a great part of the night. It was the sleep of prostration, or collapse, but peaceful and natural, so much so that the benefit is quite visible this morning. His temperature is 96, which is quite normal for the Pontiff, considering his age and present condition. What is important is that his temperature never rose above normal and never even approached a feverish state. It now is a slight cough and his kidneys are still deranged, but the secretion of urine, although very scarce, is somewhat augmented, which proves that his heart is stronger and his circulation is better, as demonstrated by the countenance and again taken their natural, almost diaphanous, aspect."

Dr. Lapponi this morning informed the prelates who were waiting in the ante-chamber that he had examined the matter which the Pope had expatiated through coughing, and he said he was able to confirm his diagnosis, having found traces of blood, clearly demonstrating the existence of pneumonia.

"Every one noticed that while in the past Dr. Lapponi never participated in the joking and humorous remarks of the announced or imaginary amusement."

as to seem the work of a miniature artist. The girl is a copy of a portrait painting. It portrays Leo XIII. seated in the Vatican gardens, accompanied by several of his household and gazing over the panorama of Rome.

CARDINAL GIBBONS HAS SAILED FOR ROME

(By Associated Press.)
NEW YORK, July 9.—Cardinal Gibbons, who goes aboard the ship to Rome, when the Pope's illness proves fatal, sailed today on the steamship La Touraine.

The Cardinal pointed out before sailing that he was not summoned officially to Rome to take part in the conclave. Such a summons, he said, would come only after the death of the Pope. When the illness of the Holy Father took a serious turn a few days ago he received a cablegram from Cardinal Rampolla, the Papal Secretary of State, suggesting that it would be advisable for the Cardinal to come over.

All the soldiers are doing good work, and when the slightest indication of disorder they are prompt to suppress it. The Alexandria and Fredericksburg Companies, with Company C, are still at the barracks on Seaboard Avenue. The Smith in command. The patrol system is established from the Avenue Bridge to Forest Hill.

At Forest Hill there is a post in command of Corporal Parris, embracing, besides, Privates Frank, Sneed, Rivers, and Adams. The soldiers are all well, and all from Company C. These men have the responsibility of guarding the bridge over the river. They are a fine lot of men, able to cope with any emergency and ready to do anything for the preservation of the city.

The men are comfortably fixed and are constantly under the watchful fatherly eye of Captain George Skidmore, former popular captain of Company C. makes daily and nightly visits to his boys and is very strict in his discipline. They have no disorder, and the police did good work in preventing such gatherings. The men are all well, and the police did good work in preventing such gatherings.

The Danville Case.
One of the chief matters in military circles was that in reference to Captain Farrar. A publication in an afternoon paper was to the effect that he would probably be asked to resign, and that charges would be preferred against him, alleging conduct unbecoming an officer and a gentleman. The company met last night and repudiated the suggestion that such a thing would be done and incidentally expressed great indignation at the circulation of such a report.

The most serious happening of yesterday, so far as is known, was the disturbance in the River View division of the company. Wires were cut there last night. The company met last night and repudiated the suggestion that such a thing would be done and incidentally expressed great indignation at the circulation of such a report.

ing patronized and more regular men are being employed each day. The strikers who have returned to work were given a regular run yesterday. Another man, formerly in the street union was taken on yesterday, but went back to the strike. He is present at the strike meeting last night. His name is Kellam. It was reported that Clayton would also go back, but this report cannot be verified.

MANCHESTER QUIET

No Disorder Over the River Last Night Worthy of Mention.

There were no disorders in Manchester last night worth mentioning. A black and white patrol, consisting of the Free Bridge on Seventh Street, and a car on the Port-Hill line was struck just before Camp Dundee was reached.

All the soldiers are doing good work, and when the slightest indication of disorder they are prompt to suppress it. The Alexandria and Fredericksburg Companies, with Company C, are still at the barracks on Seaboard Avenue. The Smith in command. The patrol system is established from the Avenue Bridge to Forest Hill.

H. M. Allport and E. C. Glenn, thought the crowd quiet and orderly. A boy named Fred Williams says he heard a torpedo go off and then heard the shooting begin. There were no stones thrown so far as he knew, but a few minutes before the car started up the street he saw the electric light smashed. J. C. Frederick also saw the light smashed, a short while after which the shooting began. Mr. Charles P. Young gave evidence of a similar sort. The firing, he said, was indiscriminate, and was from both the cars at the same time. That one of the crowd near which he stood showed no straight disorder at all. Some stones were thrown from the other side of the street.

Two of the Henrico officers were placed upon the stand. Chief of Police Ratcliffe was standing near the barn at Vile and Main Streets. He witnessed the smashing of the lamp and also heard the explosion of the torpedo. He saw nothing else until the firing began. The firing from the first car occurred as it was going rapidly up the street into the county. Constable Camp declared that he saw no signs of disorder in the crowd. Car No. 61 opened fire first at Main and Lombardy Streets. When shots began to come from the second car Sheriff Solomon and Justice Lewis, who were present, got behind a post. Mr. Camp said that after the arrest of the guards had been accomplished by the county officers one of them, who had escaped observation, fired a straight shot into a crowd of men and officers, but missed the whole bunch.

The action of the court, after the testimony of the above mentioned witnesses, is told above. The Commonwealth's attorney amended the warrant against Squel Lewis sent all three cases on to the grand jury.

MILITARY MAY TESTIFY
Col. Anderson Writes Mayor Maurice About Taylor Killing.

Among the interesting developments of yesterday was the publication of the following letter from Colonel Anderson to Mayor Maurice, of Manchester, which correspondence explains itself:

Headquarters Troops in the Field, Richmond, Va., July 8, 1903.
Hon. H. A. Maurice, Mayor of the City of Manchester.

My Dear Mayor:—The question of my reporting to you the names of the troops now serving the State, and your city, who were posted on and about Cowardin Avenue last Saturday night, in order that they might be summoned as witnesses before the coroner and the grand jury, is one that has given me deep concern and anxiety.

On the one hand, I, as a citizen, felt and feel an earnest desire, not even to appear to obstruct any lawful and proper action that the authorities see fit to take, however much I might deplore such action at this time, when the state of the public mind gives ground to fear that calm judicial investigation and proceeding may be temporarily interrupted. On the other hand, the duties and the heavy responsibilities of a commander of troops called into active service in the manner prescribed by law, make imperative that my action should be most carefully considered from the standpoint of the safety of my men and their proper and lawful protection.

In the eye of the law my opinion is that the troops called into the service of the State to protect life and property, and to maintain law and order, represent the ultimate exertion of the sovereignty of the State. Its armed force is the last evidence of its sovereign power. When that is crushed, the sovereignty of the State is overthrown.

This armed force is called into being to meet conditions before which the ordinary civil agencies are powerless, by law, and the law imposes upon it duties of the gravest character, and the heavy penalties of these duties under heavy penalties.

Surely, then, the law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law. The law itself cannot be the cause of the destruction of the law.

707 East Broad Street.

than dismayed the latter concern, and they announced yesterday that they would branch out into the general contracting business. They will handle all kinds of house building, and as well as furnish materials therefor to others.

Mr. Sitterling himself is an expert in the business of building houses, and his partners have likewise had experience along this line.

The papers in the damage suit have not yet been filed, but it is expected that Mr. Royal will have them ready in a few days.

THE COMPANY ACTS

Repudiates the Suggestion that it Will Ask Capt. Farrar to Resign.

Considerable interest was aroused in military circles yesterday by the publication of rumors to the effect that Captain Farrar of the Danville Light Infantry, will be asked by his men to resign, and that charges would be preferred against him, alleging conduct unbecoming an officer and a gentleman. The prompt action taken by Captain Farrar, who yesterday disposes once for all of the rumors, is one voice among the men repudiating the statement and showing conclusively that whatever the rumors may be doing or saying those have no hand in it. As a result of this meeting the following official publication was made last night by the company:

The members of Company M, Danville Light Infantry, now quartered at the small-Street School, were filled with amusement and indignation when this afternoon they were informed that "Danville Men Ask Captain Farrar to Resign." A meeting was immediately called in the company quarters and the paper read to the members.

"There are thirty-five members of the company now in Richmond and the article in the Richmond Dispatch, which is republished in the Danville Light Infantry, is a gross insult to the company and to the men who are serving the State. It is a gross insult to the company and to the men who are serving the State. It is a gross insult to the company and to the men who are serving the State."

The company requested that Lieutenant Hodges have the consensus of the meeting given the publicity of the press. It has been received from one of the men on duty at the Danville Light Infantry, who has nothing to do with the circulation of the paper in question.

RIGODON WON THE SEA GATE STAKES
(By Associated Press.)
NEW YORK, July 9.—R. H. Keen's Rigodon won the Sea Gate Stakes for three-year-olds at Brighton Beach to-day. Properly flared his backers by going out in front and setting the pace for the far turn, where Gannon sent Rigodon up from last to first place in a few strides. The Keen horse won driving by a neck.

Summaries:
First race—five and a half furlongs, selling—Ampere, Bragg, and a half furlongs, have (8 to 5) second, Short Cake (8 to 1) third. Time, 1:07.45.

Second race—mile—Counter Poles (15 to 1) first, Shot Gun (8 to 1) second, Rose Tint (4 to 1) third. Time, 1:13.

Third race—handicap, six furlongs—Jim Kelly (6 to 1) first, Jockey (2 to 1) second, Pentaur (6 to 1) third. Time, 1:14.

Fourth race—the Sea Gate Stakes, one mile and a furlong—Rigodon (8 to 1) first, Proper (even) second, Dr. Saylor (20 to 1) third. Time, 1:31.5.

Fifth race—mile and a sixteenth—Cardinal Wolsey (11 to 5) first, William (10 to 1) second, Irascible (3 to 5) third. Time, 1:48.25.

Sixth race—one mile and a sixteenth—Cardinal Wolsey (11 to 5) first, William (10 to 1) second, Irascible (3 to 5) third. Time, 1:48.25.
